The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-[SRO]-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change being deemed not properly filed. See also Rule 0-3 under the Act (17 CFR 240.0-3)

Partial Amendment

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

Form 19b-4 Information

1. Text of Proposed Rule Change

- (a) The Chicago Stock Exchange, Incorporated (the “CHX” or the “Exchange”), pursuant to Rule 19b-4 of the Securities Exchange Act of 1934 (the “Act” or the “Exchange Act”), proposes to amend its rules to eliminate all provisions that would impose a “price test” in connection with the short sale of securities or require that the Matching System operate in a manner consistent with such a price test. The text of the proposed rule change is set out in Exhibit 5.
- (b) Not applicable.
- (c) Not applicable.

2. Procedures of Self-Regulatory Organization

The Exchange’s Board of Directors unanimously approved these proposed rule changes at a meeting on June 13, 2007.

3. Self-Regulatory Organization’s Statement on the Purpose of, and Statutory Basis for, the Proposed Rule Change

- (a) On June 13, 2007, the Securities and Exchange Commission (the “Commission”) announced a series of amendments to Reg SHO and the elimination of Rule 10a-1.¹ The Commission’s action prohibits any self-regulatory organization from having a price test and removes the “short exempt” marking requirement of Rule 200(g). The compliance date for these changes (the “Compliance Date”) is July 6, 2007.

The Exchange’s rules currently include several provisions that should be eliminated to ensure that the Exchange’s rules do not improperly impose a price test or otherwise require handling of short sale orders in a manner inconsistent with the Commission’s latest action. Among others, these provisions include a requirement that participants effect short sales in compliance with Rule 10a-1; a description of the Matching System’s repricing of sell short orders, when necessary to comply with Rule 10a-1; and a requirement that participants mark

orders as “short exempt.”² Through this filing, the Exchange would eliminate these provisions.³

(b) Approval of the rule changes proposed in this submission is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b). In particular, the proposed changes are consistent with Section 6(b)(5) of the Act, because they would promote just and equitable principles of trade, remove impediments to, and perfect the mechanism of, a free and open market and a national market system, and, in general, protect investors and the public interest by allowing the CHX to amend its rules to respond to the Commission’s elimination of Rule 10a-1 and the amendments to Reg SHO.

4. Self-Regulatory Organization’s Statement of Burden on Competition

The Exchange believes that no burden will be placed on competition as a result of the proposed rule changes.

5. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

No written comments were solicited or received.

6. Extension of the Time Period for Commission Action

The Exchange does not consent to an extension of the time period specified in Section 19(b)(2) of the Act.

²See Article 9, Rule 23(a); Article 20, Rule 8(e)(5); and Article 11, Rules 3 and 4, respectively. Other provisions that must be eliminated are ones that relate to the “short exempt” order type and that refer to Rule 10a-1. See Article 1, Rule 2(hh) and Article 20, Rule 4(b)(23)(the “short exempt” order type); and Article 1, Rule 1(w) (referring to Rule 10a-1). Although it is eliminating the “short exempt” order type, the Exchange will continue, for 90 days following the Compliance Date, to accept orders marked in this manner to give the Exchange’s participants time to adapt to the change. See Letter from Josephine J. Tao to Jeffrey P. Burns, dated July 2, 2007 (providing no-action relief for SROs that continue to accept orders marked as “short exempt” for a period of 90 days from the Compliance Date).

³ The Exchange would also eliminate a section of its “Short Sales” rule that imposes a requirement that a market maker notify the Exchange if it has a position in a security that is greater than or equal to 5% of the outstanding public float of that security, as determined by the company’s most recent report on Form 10-K. See Article 9, Rule 23(b). This provision is one that apparently was inadvertently carried over from the Exchange’s old trading model and is not necessary in the Exchange’s new trading model. A separate provision of the Exchange’s new trading model rules specifically requires that market makers keep data about their positions and report that information to the Exchange upon request. See Article 16, Rule 10.

7. **Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)**

The Exchange believes that the proposed rule change (A) does not significantly affect the protection of investors or the public interest; and (B) does not impose any significant burden on competition because it allows the Exchange to modify its rules to conform to the Commission's changes to existing short sale-related rules. The Exchange provided the Commission with a draft of this proposed rule change on June 25, 2007 and has asked the Commission to waive the 30-day operative period requirement, to permit this rule to be operative as of July 6, 2007. As a result, the Exchange believes that this submission is non-controversial and should be designated to take effect pursuant to Section 19(b)(3)(A)(vi).

8. **Proposed Rule Change Based on Rule of Another Self-Regulatory Organization or of the Commission**

Not applicable.

**(Release No. 34-____; File No. SR-CHX-2007-17)
SELF-REGULATORY ORGANIZATIONS**

Proposed Rule Change By The Chicago Stock Exchange, Inc. Regarding the Elimination of Provisions Relating to Rule 10a-1

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”), 15 U.S.C. 78s(b)(1), notice is hereby given that on August 31, 2007, the Chicago Stock Exchange, Inc. (the “CHX” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II and III below, which Items have been prepared by the CHX. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

Through this filing, the Exchange proposes to amend its rules to eliminate all provisions that would impose a “price test” in connection with the short sale of securities or require that the Matching System operate in a manner consistent with such a price test. The text of this proposed rule change is available on the Exchange’s website at http://www.chx.com/rules/proposed_rules.htm and in the Commission’s Public Reference Room, 100 F Street, NE, Washington, DC 20549.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CHX included statements concerning the purpose of and basis for the proposed rule changes and discussed any comments it

received regarding the proposal. The text of these statements may be examined at the places specified in Item IV below. The CHX has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. *Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Changes*

1. Purpose

On June 13, 2007, the Securities and Exchange Commission (the "Commission") announced a series of amendments to Reg SHO and the elimination of Rule 10a-1.¹ The Commission's action prohibits any self-regulatory organization from having a price test and removes the "short exempt" marking requirement of Rule 200(g). The compliance date for these changes (the "Compliance Date") is July 6, 2007.

The Exchange's rules currently include several provisions that should be eliminated to ensure that the Exchange's rules do not improperly impose a price test or otherwise require handling of short sale orders in a manner inconsistent with the Commission's latest action. Among others, these provisions include a requirement that participants effect short sales in compliance with Rule 10a-1; a description of the Matching System's repricing of sell short orders, when necessary to comply with Rule 10a-1; and a requirement that participants mark orders as "short exempt."² Through this filing, the Exchange would eliminate these provisions.³

¹ See Press Release No. 2007-114; Release No. 34-55970 (June 28, 2007), 72 FR 36348 (July 3, 2007).

² See Article 9, Rule 23(a); Article 20, Rule 8(e)(5); and Article 11, Rules 3 and 4, respectively. Other provisions that must be eliminated are ones that relate to the "short exempt" order type and that refer to Rule 10a-1. See Article 1, Rule 2(hh) and Article 20, Rule 4(b)(23)(the "short exempt" order type); and Article 1, Rule 1(w) (referring to Rule 10a-1). Although it is eliminating the "short exempt" order type, the Exchange will

2. Statutory Basis

The CHX believes the proposal is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b).⁴ The Exchange believes that the proposed changes are consistent with Section 6(b)(5) of the Act, because they would promote just and equitable principles of trade, remove impediments to, and perfect the mechanism of, a free and open market and a national market system, and, in general, protect investors and the public interest by allowing the CHX to amend its rules to respond to the Commission's elimination of Rule 10a-1 and the amendments to Reg SHO.

B. Self-Regulatory Organization's Statement of Burden on Competition

The Exchange does not believe that the proposed rule changes will impose any burden on competition.

continue, for 90 days following the Compliance Date, to accept orders marked in this manner to give the Exchange's participants time to adapt to the change. *See* Letter from Josephine J. Tao to Jeffrey P. Burns, dated July 2, 2007 (providing no-action relief for SROs that continue to accept orders marked as "short exempt" for a period of 90 days from the Compliance Date).

³ The Exchange would also eliminate a section of its "Short Sales" rule that imposes a requirement that a market maker notify the Exchange if it has a position in a security that is greater than or equal to 5% of the outstanding public float of that security, as determined by the company's most recent report on Form 10-K. *See* Article 9, Rule 23(b). This provision is one that apparently was inadvertently carried over from the Exchange's old trading model and is not necessary in the Exchange's new trading model. A separate provision of the Exchange's new trading model rules specifically requires that market makers keep data about their positions and report that information to the Exchange upon request. *See* Article 16, Rule 10.

⁴ 15 U.S.C. 78(f)(b).

C. *Self-Regulatory Organization's Statement on Comments Regarding the Proposed Rule Changes Received from Members, Participants or Others*

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Changes and Timing for Commission Action

Because the foregoing proposed rule change does not:

- (i) significantly affect the protection of investors or the public interest;
- (ii) impose any significant burden on competition; and
- (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate,

it has become effective pursuant to Section 19(b)(3)(A) of the Act⁵ and Rule 19b-4(f)(6) thereunder.⁶ At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

The Exchange has requested that the Commission accelerate the operative date. The Commission finds good cause to designate the proposal to become operative immediately because such designation is consistent with the protection of investors and the public interest. For these reasons, the Commission finds good cause to designate that the proposal is both effective and operative upon filing with the Commission.⁷

⁵ 15 U.S.C. 78s(b)(3)(A).

⁶ 17 CFR 240.19b-4(f)(6).

⁷ For purposes only of accelerating the operative date of this proposal, the Commission has considered the proposed rule's impact on efficiency, competition and capital formation. 15 U.S.C. 78c(f).

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposal is consistent with the Act.
