Attachment A to this Notice sets forth the EBS record layout, and reflects the modifications noted below and changes from the version previously published in CHX Market Regulation Notice MR-17-03. Discussion

The CHX and the other ISG members have extended the effective date for compliance with certain data elements to be consistent with the exemptive relief provided by the SEC, which recently extended the compliance date for certain broker-dealer recordkeeping and reporting requirements of the Large Trader Rule from November 1, 2017, to November 15, 2018. Accordingly, the CHX and the other ISG members are extending the effective date for compliance with certain data elements to November 15, 2018. The SEC has grouped the Large Trader Rule into three phases for purposes of implementation.

- Phase One required clearing broker-dealers for large traders to keep records of and report, upon the SEC's request, specified data concerning: (1) proprietary trades by large traders that are U.S. registered broker-dealers; and (2) transactions effected by large traders through a sponsored access arrangement.⁴ Transaction data include both the large trader identification number (LTID) and execution time. The compliance date for Phase One was November 30, 2012.
- Phase Two extended the recordkeeping and reporting requirements for clearing broker-dealers to transactions effected pursuant to a direct market access (DMA) arrangement.⁵ As with Phase One, this requires clearing broker-dealers to report Transactional Data that includes both LTID and execution time for DMA arrangements. Phase Two also includes the prime broker or other carrying broker-dealer that carries an account for a Large Trader. These entities will have to report Transactional Data other than execution time, *e.g.*, the applicable LTID. The compliance date for Phase Two was November 1, 2013.
- The remaining types of large traders and the transactions not covered by Phases One and Two are covered by Phase Three. Phase Three will therefore apply to all other broker-dealers subject to the recordkeeping and reporting requirements of the Rule (*i.e.*, broker-dealers that are large traders but do not self-clear, and broker-dealers effecting transactions directly or indirectly for a large trader where a non-broker-dealer carries the account for the large trader). Phase Three will require all remaining broker dealers subject to the recordkeeping and reporting requirements of SEA Rule 13h-1 to come into full compliance with those

⁴ The SEC defines a sponsored access arrangement as one “where a broker-dealer permits a customer to enter orders into a trading center without using the broker-dealer’s trading system (*i.e.*, using the customer’s own technology or that of a third party provider).” *See* Extension Order.

⁵ The SEC defines a direct market access arrangement as “an arrangement whereby a broker-dealer permits customers to enter orders into a trading center but such orders flow through the broker-dealer’s trading systems prior to reaching the trading center.” *See* Extension Order.

provisions. The compliance date for Phase Three was November 1, 2017⁶, and, as noted above, is being extended to November 15, 2018.

Given the SEC's extension of the Phase Three reporting requirements and the corresponding extension of the EBS data elements, by November 15, 2018, broker-dealers must be in EBS reporting compliance for the Order Execution Time, Large Trader Identification Number 1-3 and Large Trader Identification Qualifier fields as outlined in Phase Three of the recordkeeping, reporting and monitoring requirements of SEA Rule 13h-1.

The required EBS fields that are subject to this extension are set forth below and are unchanged from CHX Market Regulation Notice MR-17-03. *See also* Attachment A for details.

⁶ The SEC previously extended the compliance date for Phase Three from November 1, 2015 to November 1, 2017, and CHX and the other ISG members granted a corresponding extension of certain EBS data elements. See CHX Regulatory Notice MR 16-01 (January 20, 2017).

Otherwise it should be marked “N” for No. This information is requested under the approved SEC Large Trader Reporting Rule (SEA Rule 13h-1) requirements.
